DATA-DRIVEN & STRATEGIC

Curriculum Insight Projects assess standards implementation and teacher perception. Customized to your district's needs and schedule, results provide a powerful lens for making data-informed decisions about curriculum, instruction, and professional learning.

Led by Dr. David Silverberg and his team of curriculum experts, these projects **identify gaps, highlight areas where support is needed, and enhance outcomes.**

AFFORDABLE & ACTION-ORIENTED

As one of Ohio's top providers of Professional Learning for teachers and leaders, we know the complexities of budgets and timelines. We are happy to customize the project to best meet your district's needs.

Deliverables include:

1. Initial meeting with district leaders to determine goals and scope of services needed.
2. On-site data intake on Standards Implementation and Assessment.
3. Teacher Perception Survey facilitation (questions customized to align with district goals).
4. Curriculum and Climate reports that inform action-oriented outcomes.
5. Guided delivery of data and findings to leaders and teachers.

WHY AU?

- **43 Curriculum Projects**
- **23 Counties**
- **150+ Schools**

"The experience itself is professional development!"
~ Teacher

"The feedback we've received during this whole process has been overwhelmingly positive"
~ Administrator
